

Directions to write on top of card template:
For each banned word card you create, please write the vocabulary word above the thick line. Underneath the line write synonyms and other related words that the contestant cannot say when trying to get his/her teammates to guess the word. For example, if the word is "affable" you will want to write "affable" above the thick line, and then words like "friends," "kind," "personable," and "nice" below the line. You should have 5 words underneath each vocabulary word. When you are finished creating the cards, cut them out neatly!
